Terms and conditions for applying, calculating and booking interest on accounts

• ING savings accounts

The terms and conditions of application, calculation and recognition of interest on regulated and unregulated savings accounts are detailed in the regulations for the relevant account, available in ING branches and on the ING website.

The fidelity premium on a regulated savings account is a premium granted on amounts which stay on the account for 12 consecutive months. The fidelity period starts at the latest on the first calendar day after the calendar day on which the capital is booked or which follows the calendar day at the end of the previous fidelity period. The fidelity premium is credited quarterly on the relevant account on the last day of that quarter or, at the latest, on the second bank business day following the quarter for which the interest was recognized, the value date being the last calendar day of that quarter.

• ING current accounts and ING Invest Accounts

In the case of modifications to the interest, it is calculated based on the various rates or amounts, or the various terms and conditions of application, calculation or booking that were in effect during the month to which the interest relates.

Positive credit interest and negative interest are calculated at base rate, expressed on an annual basis and divided by 365, and considering the value dates of the banking transactions booked on the account at closing of the transactions, according to the following terms:

- sums transferred into the account generate positive credit interest or negative interest from the bank business day during which the amount of the payment transaction is credited to the account. If funds are received outside a bank business day, the value date corresponds to the next bank business day;
- sums transferred out of the account stop generating positive credit interest or negative interest the moment the payment transaction is debited from the account.

The (positive) credit interest or negative interest on ING current accounts and ING Invest Accounts is calculated daily on the daily credit balance. It is expressed as a gross rate per annum.

The credit interest is subject to withholding tax. The credit interest paid by ING and the negative interest charged to the customer shall not be subject to compensation from ING for the calculation of withholding tax, the latter being charged by ING on all credit interest paid during the period in question. The (positive) credit interest is booked every year on 31 December of the calendar year passed at midnight and is paid into the relevant account at the latest on the second bank business day of January of the year following the year for which the interest was booked, the value date being 31 December.

The negative interest settlement on accounts having shown daily credit balances over the course of a calendar month with values higher than defined in the tariffs in effect for that month will be charged at the end of that month or, at the latest, on the second bank business day following the month for which the interest was recognized, the value date being the last calendar day of that month.

Debit interest is calculated at base rate, expressed on an annual basis, and considering the value dates of banking transactions booked on the account at daily closing of transactions, according to the following terms:

- debit amounts on the account generate debit interest from the calendar day they are booked on that account;
- debit amounts stop generating debit interest from the day they are cleared.

Debit interest on ING Current accounts and the ING Invest Account is calculated daily on the daily debit balance (daily authorized overdraft or outside authorized overdraft). It is expressed as a gross rate per annum. Debit interest will be deducted from the account having shown daily debit balances in value over the course of a calendar month, at the end of that month or, at the latest, on the second bank business day following the month for which the interest was recognized, the value date being the last calendar day of that month.

Legal or operational correspondence

When ING Belgium needs to communicate information required by law or necessary for operational reasons, regarding accounts and services linked to those accounts which it offers to its customers, or when ING in Belgium communicates modifications to its charges, regulations and general terms and conditions for all banking, financial and other services that it offers to its customers, it will inform them either by electronic means or on paper by post.

• By electronic means or on paper

Electronic correspondence entails sending:

1. a message detailing legal or operational information or modifications to the charges or regulations to the "My messages" section of the customer's ING Banking app and/or Home'Bank, and
2. a general email to the email address given by the customer, to inform them that this message is available in the "My messages" section of their ING Banking app and/or their Home'Bank.

Paper correspondence entails including a message detailing legal or operational information or modifications to the charges or regulations in the customer's account statements and posting it to the customer.

• General criteria

If the following two criteria are met, the customer is informed by electronic means:

1. they have chosen to receive electronic account statements (accessible via their ING Banking app and/or their Home'Bank) for at least one of their accounts;
2. they have provided a valid email address.

If one or more of these two criteria has not been met, the customer is informed on paper by post.

If a customer who meets the criteria to receive electronic correspondence wishes to receive this correspondence on paper, they must ask for all their account statements to also be sent on paper by post (at their expense, where applicable).

If a customer who meets the criteria to receive correspondence on paper wishes to receive this correspondence by electronic means, they must choose electronic account statements for at least one of their accounts and provide a valid email address.

The form of correspondence (by electronic means or on paper by post) is automatically updated, without notice, when the above criteria are no longer met or are not met following a change or changes in the relationship between the customer and ING Belgium.

ING Belgium takes care to respect the form of correspondence as determined above and, where applicable, as designated by the customer but reserves however the right in any case to send a letter by post, instead of or in addition to a communication by electronic means, to the address the customer indicated or, in the absence of such an address, to his/her/its last address known to ING Belgium, to his/her/its legal domicile or to his/her/its main establishment if he/she/it exercises a liberal profession or a trade, at the current rates.

• Particular cases

The criteria set out under "General criteria" relate solely to the relationship between the bank and customers who are "natural persons". Therefore, when a customer who is a "natural person" also acts as a representative or agent of a customer who is a "legal entity", other conventions apply to the communication concerning the relationship between the bank and the customer who is a "legal entity".

The charges in this brochure concern products and services offered by ING Belgium, hereafter ING (unless indicated otherwise). They are expressed in euro.

- **EEA Currency:** Euro (EUR), Bulgarian Leva (BGN), Czech Koruny (CZK), Danish Kroner (DKK), Hungarian Forint (HUF), Icelandic Kronur (ISK), Norwegian Kroner (NOK), Polish Zloty (PLN), Romanian Lei (RON), Swedish Kroner (SEK), Swiss Franc (CHF).
- **IBAN:** the International Bank Account Number (IBAN) is an international standard for bank account numbers to

* no VAT applied

be used for sending money in euro (SEPA) and when appropriate, international payments. An IBAN consists of a maximum of 34 alphanumerical characters and has a set length per country. It is composed of a country code (2 letters), a check digit (2 digits) and a domestic account number (completed for some countries).

- **BIC:** Bank Identifier Code. This is an international code, also known as a SWIFT code, which uniquely identifies each bank. It contains 8 or 11 alphanumerical characters and consists of a bank code (4 characters), a country code (2 letters), a place code (2 characters), and a branch code for some banks (3 characters).
- **BEN/SHA/OUR Cost Instruction:**
 - **Shared Cost (SHA):** the payer pays the costs charged by the payer's bank; the costs charged by the beneficiary's bank are borne by the beneficiary;
 - **Our Cost (OUR – borne by the payer):** the payer pays the costs charged by the payer's bank and the costs charged by the beneficiary's bank;
 - **Beneficiary Cost (BEN – costs borne by the beneficiary):** the payer does not pay any cost. Both the costs charged by the payer's banks and the costs charged by the beneficiary's bank are borne by the beneficiary.
- **Straight Through Processing (STP):**
 - **for sending money in euro (SEPA):** electronic transfer indicating the correct payer and beneficiary account numbers (IBAN), the BIC (SWIFT code) for the beneficiary's bank and the beneficiary's name. Indicating the BIC is optional (and is recommended for payments to a bank located outside the EEA).
 - **for sending money: international transfers:** electronic transfer indicating the correct payer and beneficiary account numbers (IBAN), the BIC (SWIFT code) of the beneficiary's bank and the beneficiary's name and address.
- **Full Amount Principle:** the full amount must be transferred to the beneficiary's account. Any applicable charges are debited by the bank separately. This principle applies to sending money in euros (SEPA) and transfer in other European member state currencies executed within the European Economic Area (EEA).
- **PSD II:** Payment Services Directive II: (second) directive on payment services, this directive –which, along with others, has been replicated in Belgian economic law – applies to payments in any currency:
 - > made between two accounts held by entities providing payment services (for example, banks) established within the European Economic Area (EEA);
 - > made between the account of an entity providing payment services established within the EEA and the account of an entity providing payment services established outside the EEA (with some exceptions).
- **Value Date:** the value date is the date on which a withdrawn amount ceases to yield interest or that date on which a transferred amount begins to yield interest.
- **SEPA Payment:** all transfers in euro for which the payer's account and the beneficiary's account are both held in a country within the SEPA zone. The transfer has the following characteristics:
 - > the account is in IBAN format
 - > the cost instruction is for shared costs (SHA)
 - > the "full amount" principle is applied
 - > indicating the BIC is optional but recommended when payment is made to a bank established in a country outside the EEA.
- **SEPA Transactions:**
 - **Sending money in euros (SEPA):** transfers that have the following characteristics:
 - > the funds are deposited into the beneficiary's account the same day.
 - > if the transaction is executed after 2:30 p.m., the funds are deposited into the beneficiary's account, at the latest, on the next bank working day.
 - **Instant credit transfers in euros (SEPA) or "instant payment":** transfers that have the following characteristics:
 - > available for transfers made to other participating banks in Sepa zone.
 - > the transfer is executed within a maximum of a few seconds.
 - **Standing order in euros (SEPA):** an automatically recurring transfer (a transfer that occurs regularly, upon a client's instruction, for a set amount, from a client's account to another account).
 - **Direct debit in euros (SEPA):** an agreement between two parties (= a direct debit mandate) which allows the beneficiary of the claim (= creditor) to initiate the debit of the payer's account (= debtor).

Collection of international checks:

Under Usual Reserve (UUR)

"Under Usual Reserve" is a reserve option for obtaining cover from the issuing bank in a documentary credit transaction or the issuance of a check. In other words, a check delivered "Under Usual Reserve" will be credited within 2 working days to the customer's account. This type of credit is not a firm and final credit. In the event of rejection (unpaid, lack of provision, ...) this same amount will be automatically debited from the account of the remitting customer.

Credit After Collection (CAC)

As its name suggests, a "Credit After Collection" means that the bank which receives the check from its client in order to credit him for this amount, will first go to recover the funds from the issuing banker (drawn banker). Once the amount of the check in his possession, the remitting banker will in turn credit his client (beneficiary of the check). This type of collection constitutes a firm and final credit (except in the event of fraud) because the drawn banker checks the conformity of the check before paying the banker who gave it to him. Consequently, the collection period for a "Credit After Collection" check is longer due to the various verifications carried out by the bankers involved in this.
