

Procedure for converting your beneficiaries from BBAN to IBAN.

This procedure will help you to convert all your domestic beneficiaries to the IBAN format, only for the Home'Bank Offline services on PCs.

Procedure

Save your data

For security purposes, it is important to back up your database.

To save your data (history, beneficiaries, etc.): Open the Offline services of Home'Bank. Click on "Home' Bank" – "User data management" – "Save data".

Name the file "**Home' Bank Backup file**" or another name you can remember easily. In "Save in", you can choose where the file will be stored on your PC.

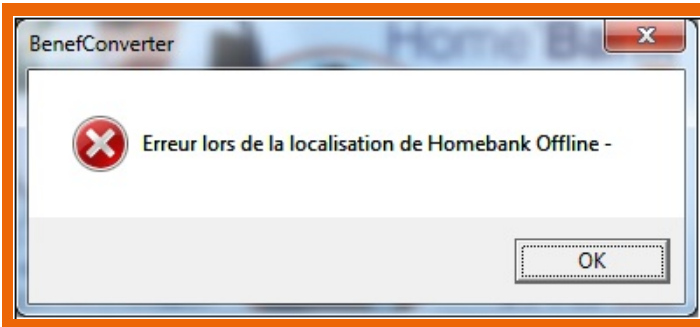

The necessary files will be saved on your computer.

Converting beneficiaries

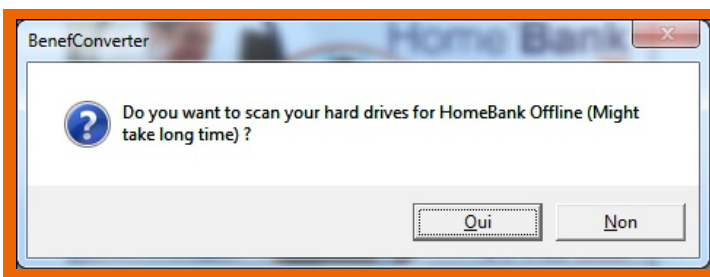

[Click here](#) to download the program. Then unzip the file.

Run the file named: "**benefconvertor.exe**".

The program will automatically find your database. If it works, go straight to the next step. Otherwise, you will receive the following error message: Click on "OK".

| Error message. Click on "OK".

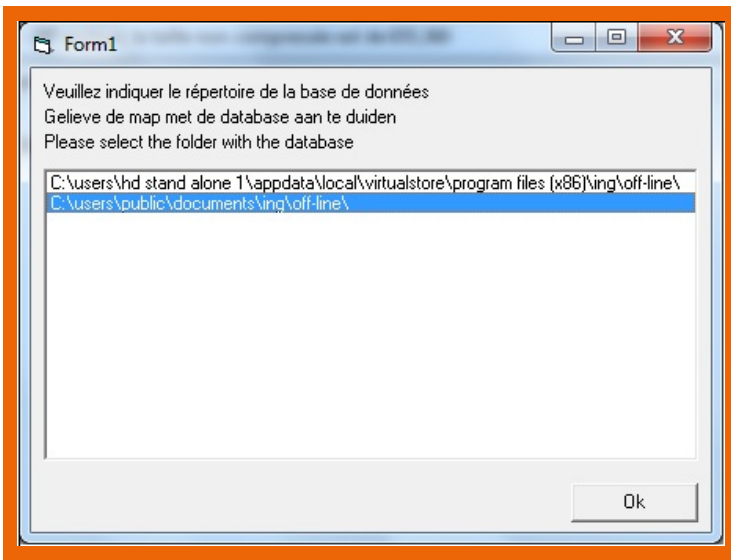

After the message, the program will ask if you want to scan your hard drive to find the right file. Click on "Yes".

| Click on "Yes" to scan your hard drive.

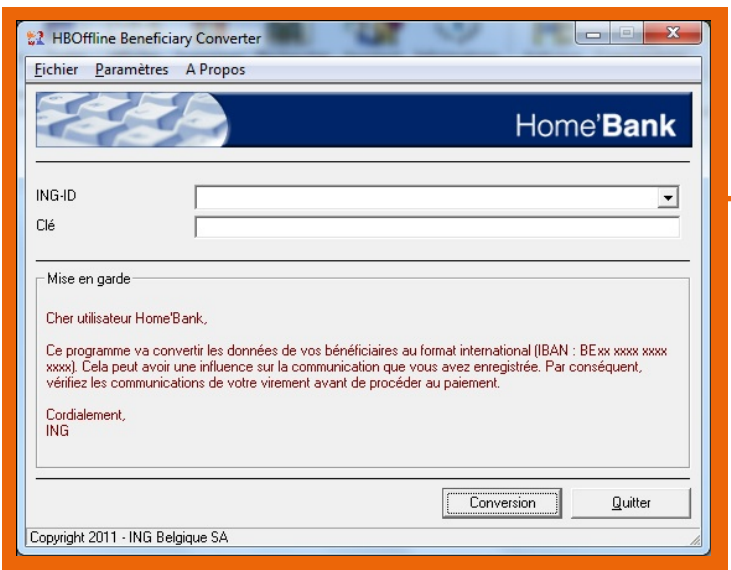

| Please wait while your hard disk is scanned.

The program will display the results.
For Windows XP, select C:/ Program Files/ ING/ Offline
For Windows Vista/ 7, select "C:/ user/ Public/ Public Documents/ ING/ Offline"

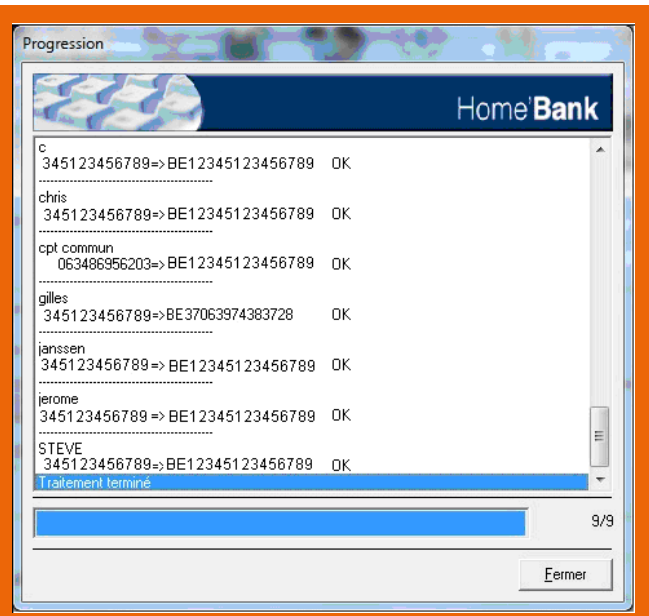

Example for Win Vista/ 7: Select the right path and click on "OK"

Select your ING ID and enter your key (Caution, the key is an optional code, you might not have one).

Select your ING ID and your key (optional).

The program will automatically convert your beneficiaries.

When done, click on "Close" and your beneficiaries will be automatically converted.
