| Fees |

Entry fee

3.50% on each premium paid (after deduction of the premium).

Surrender fee

0.00% surrender fee in case of decease of the insured party before term of the contract.

Yearly management fee

0.00% management fee.

Partial/full surrender fee

The surrender fee is 5.00 %, calculated degressively on a daily basis in the last 5 years of the contract, as defined in the General Terms and Conditions.

To protect the interests of the policy holders, the insurer has the right to deduct the legally defined maximum surrender fee and a financial compensation, when some market conditions are critical.

In that case, the surrender fee will be based on the total reserve, less the financial compensation.

The financial compensation will be determined based on the market value of the surrendered amount of the reserve at the time of withdrawal on the basis of the official interest rate for linear bonds (=OLO rate) in force and the remaining duration of the contract, calculated in accordance with the provisions of the Royal Decree concerning life insurance activities of November 14, 2003.

The financial compensation is based on the total reserve, including the profit-bonus reserve.

If the beneficiary dies before the contract matures, the policyholder may surrender the contract without charge.

| Term |

- The contract will remain in force at least until the beneficiary's 18th birthday.
- However, it must be effected for a minimum term of 10 years from its inception.
- The contract shall take effect on receipt by NN Insurance Belgium SA/NV of the amount of the initial premium in its collection account.
- The contract shall terminate:
 - either on the maturity date,
 - or in case of partial surrender (see Section on partial surrender),
 - or upon full surrender.

| Premium |

- Contract based on voluntary monthly/three-monthly/half-yearly/yearly payments.
- Minimum annual premium of euro 300.00 (including premium tax and entry fee).
- In the context of premium payment with automatic collection by NN Insurance Belgium SA/NV, an automatic indexation in line with the consumer price index is possible.

| Tax |

The following rule applies under the current legislation:

- a tax is payable on the amount of the premium of 2.00%.
- no tax break on premium paid.
- no taxation of the capital to be received by the beneficiary/ies except in the case of full or partial surrender during the first 8 years. In this case tax deducted at source of 27.00% applies to the interest. The taxable amount must not be lower than the amount corresponding to the capitalisation of the paid premium at an annual interest rate set by law at 4.75% (art.19 §4 ITC 92).
This withholding tax is liberating.

Death duty

In the event of death of the insured, the capital received by the beneficiary/ies of the contract may be subject to death duties.

| Surrender/Withdrawal |

Partial surrender/withdrawal

- Partial surrender is possible provided that the surrender is based on a theoretical surrender value of at least euro 300.00.
- Partial surrender must form the subject of a written request dated and signed by the policyholder.
- Partial surrender may terminate the contract if the reserve remaining after the partial surrender is less than euro 625.00. The contract will be terminated automatically and the theoretical surrender value will be paid, after deduction of any surrender fee due.

Full surrender/withdrawal

- Full surrender is possible at any time.
- Full surrender must form the subject of a written request dated and signed by the policyholder.
- Full surrender terminates the contract.

| Information |

Each year, the policyholder receives detailed information about the status of the contract including, amongst other aspects, the following data for the previous year:
